ENERGY INSURANCE

CONSORT  
TECHNICAL UNDERWRITERS

TRUSTED ENGINEERING INSURANCE

# WHAT IS COMPREHENSIVE ENERGY INSURANCE?

**Consort** has developed fully integrated insurance products to accommodate the rapidly advancing Renewable Energy sector.

Our Comprehensive Energy Insurance facility is designed and focused around the commercial and industrial installations, but we also are proud to offer Lloyds accredited Utility Scale installations and projects to comply with Lenders requirements (S&P A Rated status).

Both facilities provide the “Cradle to Grave” concept. Our team of highly experienced underwriters have a wealth of knowledge and skills in this specialized field of technology have “re-positioned” themselves as one of the leaders in this highly complex field of insurance.

The Age of Renewable Energy is here for today, tomorrow and the future. The need for expertise in this sector is critical and behind our Intermediaries and / Financial Service Providers, we have positioned ourselves to drive these products and services with utmost confidence that our products are among some of the best available in the insurance industry.

# **TIERS** OF RENEWABLE ENERGY **PROJECTS**
